scientific and humane issues in the use of random source dogs and cats in research examines the value of random source animals in biomedical research and the role of class b dealers who acquire and resell live dogs and cats to research institutions findings include that while some random source dogs and cats may be necessary and desirable for national institutes of health nih funded research there is no clear need to obtain those animals from class b dealers several options for random source animal acquisition already exist and additional options are recommended which would further ensure the welfare of these animals and foster a positive public image for nih while the scientific community has recognized and responded to concerns for humane treatment of animals in research government oversight has thus far been unable to fully enforce the animal welfare act in regard to class b dealers of live animals although the animals acquired by class b dealers are destined for research and nih research in particular the standard of care while in the possession of some class b dealers requires an inordinate amount

of government enforcement and is not commensurate with the policies of most nih funded research laboratories this dichotomy of standards reflects poorly on public perceptions of nih and jeopardizes animal welfare this book will be crucial for nih and other groups using random source animals in research including veterinary schools and research facilities animal welfare advocates policy makers and concerned pet owners will also find this a vital and informative work for reconciling the needs of research with the welfare of animals

falk argues that the failure to achieve what he terms humane global governance is partially due to the exclusion of religious and spiritual dimensions of human experience from the study and practice of government the book begins with a section on dominant world order trends and tendencies with respect to global governance this is followed by consideration of the extent to which these recent world order trends that are shaping the historical situation at the end of the second millennium are also creating a new unexpected opening for religious and spiritual energies a development that has problematic as well as encouraging aspects this religious resurgence is also discussed as part of the double edged relevance of religion to global governance the final section argues in support of the inclusion of emancipatory religious and spiritual perspectives in world order thinking and practice along with an enumeration of potential contributions
