economics

a forceful argument against america s vicious circle of growing inequality by the nobel prize winning economist the top 1 percent of americans control some 40 percent of the nation s wealth but as joseph e stiglitz explains in this best selling critique of the economic status quo this level of inequality is not inevitable rather in recent years well heeled interests have compounded their wealth by stifling true dynamic capitalism and making america no longer the land of opportunity that it once was they have made america the most unequal advanced industrial country while crippling growth distorting key policy debates and fomenting a divided society stiglitz not only shows how and why america s inequality is bad for our economy but also exposes the effects of inequality on our democracy and on our system of justice while examining how monetary policy budgetary policy and globalization have contributed to its growth with characteristic insight he diagnoses our weakened state while offering a vision for a more just and prosperous future

this book covers a variety of topics regarding environmental practices in our day to day lives as well as topics concerning sustainable development as a broader concept embracing ecological social and economic aspects to improve the quality of life for people around the world starting with the traditional controversy between the neoclassical economy and sustainable economy which may be overcome by scientific progress due to more intensive scientific studies of the sustainability paradigm the book proceeds to discuss various problems and challenges regarding environmental protection and sustainable development in different countries and on different continents this includes analyses of recent sometimes fatal mining disasters in south and north america challenges and opportunities for rural development in africa and australia an exploration of the role of women for sustainable development in palestine water safety and water security issues in asia and australia the environmental exploitation of popular tourism destinations like acapulco and deforestation in malaysia suggesting innovative approaches to turn challenges into opportunities to effectively tackle these problems other topics addressed involve sustainable energy creation for future generations a research survey among romanian students on sustainable consumption behavior validity testing for a heat transfer model in a greenhouse and a case study on sustainability risk management practices at malaysia s environmentally sensitive companies the book closes with an examination of highly digitalized smart cities as a potentially valuable complement to conventional urban and rural lifestyles in connection with achieving the un sustainable development goals sdgs
