the book of the ancient world is an account of our common heritage from the dawn of civilization to the coming of the greeks it is the story of how human beings began their great adventure of learning how to live of how they have sought to satisfy the practical needs of their bodies the questioning of their minds and the searching of their spirits to this end it subordinates details of political events to the record of things that lie at the foundation of our modern civilization dorothy mills had an uncanny and unique ability to write history that is interesting and at the same time based on sound scholarship her direct engaging approach is valued increasingly by the many parents in our day who are looking for reliable materials for home study as well as by many private school educators the highly prized six volumes of her historical works see below have become very scarce on the used book market and so dawn chorus has undertaken to reprint them as part of its effort to offer texts ideally suited to the needs of a new generation of teachers and students in a world where the quality of education has so deteriorated may the reissue of this wonderful historical series shine as a beacon to a new generation of young and not so young scholars dawn chorus publishes these five other books by dorothy mills the book of the ancient greeks the book of the ancient romans the people of ancient israel the middle ages and renaissance and reformation times dawn chorus has also republished another outstanding and long out of print historical series perfectly suited for home or school use and highly recommended in home school curricula entitled the picturesque tale of progress by olive beaupre miller it is available in large format 9 volumes or smaller double bound format 5 volumes

this book is the preliminary part of a great work titled the book of the egyptian the beginning of the basic egyptology or a key to the understanding of history philosophy and world religion usually the introduction is made in the form of a brief preface or foreword but i got a whole book as the first step in a multi volume publication of the study the purpose of this specific introduction as the beginning of serious research is right at the level of the opening to inspire a reader showing him in a clear visual and comprehensible form the whole true mechanism of the hieroglyphic writing to achieve this i will completely dispel the myth created by the modern science that hieroglyphs do not convey any meaning of words the whole idea but only individual sounds letters or their combination syllables this scientific myth will be finally deprived of the status of scientific knowledge and the translation of the phaistos disc on the contrary will be clearly shown what is called broken apart and will be read in the ancient hieroglyphic language united by the principle of construction in the language of the ancient egyptians i can say that it will not be two simultaneously existing systems of hieroglyphs translation as well as two egyptologies one will be false and the other true to prove the validity of the system of translation i wanted to give you immediately not only a complete translation of the text of the phaistos disc where the number of occurrences of each hieroglyph is not big 1 to 19 times but the translation of the whole ancient egyptian writing because the number of times it is used in there is thousands if not even millions and each such use of each hieroglyph is translating in the same way so it creates the full reading of the hieroglyphic texts writing which will be easily read by everyone with the dictionary of hieroglyphs in the future the main reason why i wanted to do it is because at first i read the ancient egyptian texts and only then by chance came across with the hieroglyphs of the phaistos disc but then i decided to set a different aim

to teach the reader to think and not just to read hieroglyphs since we have no ancient egyptian temple and you re not its novice the method of achieving the aims will be different than in the antiquity first of all i would suggest not a translation of ancient egyptian hieroglyphs but a complete translation of the phaistos disc and at the same time to give them a sort of test of common sense to modern science in the face of particular academies and universities of the world let them answer me the question not knowing the translations of ancient egyptian texts whether they think this translation of the phaistos disc is correct so when i completely publish the book of egyptian it will become clear who they are and where do they lead all of you as they always test the students it s a time to test them as well will they pass the test i do not know but any way you my reader will get to know about it in the main manuscript and will be able to draw your own conclusions about their intellectual level therefore i recommend you to take this message of the book at least with the attention because not every day the science gets a ready revelation designed in the form of scientific study and here the attention and common sense will help the reader to re look the original pure uncomplicated meaning of the hieroglyphs which through the veil of delusion will finally begin to appear in their true original and vibrant colors and finally get from the nether world into the realm of the living
